### RECLAIMED DOUGLAS FIR BEAMS DESCRIPTION

Medium brown Reclaimed Douglas Fir beams.

Douglas Fir is a common lumber for structural applications. Reclaimed Douglas Fir has tight growth rings and is extremely stable due to years of conditioning.

The Reclaimed Douglas Fir beams can be fresh cut, original faced or hand hewn.

### OPTIONS & UPGRADES

- Surfaced 4 Sides—S4S Option—Available upon request
- Distressed Option—Available upon request
- Power-washed Cleaning Option—Available upon request
